

THE MARSHAL RICE CRITICISES DOTHAN

**TOO GREAT RISKS ARE
TAKEN—LITTLE EFFORT
TO CHECK LOSSES**

Fire Marshal Rice in making his report to Insurance Commissioner Cyrus B. Brown, states that municipal officials of Dothan have failed to co-operate with him as they should in discovering the origin of a number of supposedly incendiary fires. He states that the insurance agents at Dothan are allowing many risks to be written, the policy value being in excess of the property valuation. He states that each time he has come to Dothan to investigate the origin of fires, he has been blocked by a lack of co-operation on the part of the city officials.

The report in full follows: "Referring to an investigation made recently at Dothan, I have been unable to gain any results whatever in that city, which outnumbers any other section of the state for fires, many of which are incendiary. It has been intimated to me that some of the fire insurance companies doing business in Alabama, by their general or special agents, feel that they are not receiving the proper amount of protection by the state, especially in the above referred to city.

In answer to this I wish to advise you that I have repeatedly gone to Dothan and used my every effort to convict the guilty parties, and each time I found myself blocked by lack of co-operation of the municipal authorities and assistance of the local insurance agents.

Little Effort to Stop Fires

"It has been reported to me that there is but little effort to stop the numerous fires occurring there, and I am also informed that the fire insurance companies permit many risks to be written on property, the policy value being in excess of the property valuation.

"Recently I was in Dothan and my attention was called to a fire occurring there, where the owner had offered his property (house and lot inclusive at a certain price, failing to find a buyer,) the house in question was insured at an amount exceeding the price of entire property. My information was that only a short time after the insurance was written, this house burned, origin unknown. I am absolutely impossible for the state, under the fire marshal act, or by its solicitor to better protect the interest of the insurance companies, so long as these conditions exist, while with the assistance of the insurance companies and the officers as required I have no trouble in protecting the innocent parties and convicting the guilty."

MACON TELEGRAPH IS DESTROYED BY FIRE

PRINTER ASLEEP IN BUILDING, IS BURNED TO DEATH

Macon, Ga., Nov. 3.—One man was killed and a property loss of \$100,000 resulted when The Macon Telegraph building was completely gutted by fire early tonight.

Raymond Clay, a printer, was burned to death. He had come to the city from Knoxville, Tenn., looking for work, and, without sleep, lay down to get some rest in the rear of the composing room. The fire spread with such great rapidity from the back to the front of the building that Clay was forgotten in the rush for safety by the other employees. Only about half of the files of the paper dating back for seventy-five years, were saved. C. R. Pendleton, editor of the paper, also, it is feared, lost a valuable collection of old words on history and Georgia subjects.

The fire, as far as can be learned, started from three boys smoking cigarettes at the back of the building, a "butt" dropping into some paper. The efforts of the firemen were chiefly confined to keeping the flames from spreading to the adjoining buildings, one of

which was occupied by the Macon Evening News. Half an hour after it was seen that The Telegraph plant was total loss, the working force was transferred to The Evening News office and the regular morning edition was being gotten out.

A PACKED HOUSE GREETED "FAUST"

C. W. Park's Dramatic Co., produces the old time favorite religious drama "Faust" last night to an overflow audience, this play Mr. Park had announced as the best of the week and the company lived up to every promise playing "Faust" with exactly the same fervor as if in a New York theatre instead of the Canvas Opera House.

"Faust" is intensely dramatic teaching everyone a lesson of the power of good over evil and those who saw this play last night had only words of praise for the production in general.

Mr. Park had provided everything to make a complete production, the costuming, scenery and electrical effects were correct to the minute detail.

When the final curtain descended the audience of last night realized that Mr. Park has the best company he has ever had. Tonight a new play, "Charlotte Temple" is the bill and as this play contains among its many beautiful scenes, a yacht at sea, Mr. Park can be assured of a packed house. "The Belle of Richmond" is underlined for Saturday matinee starting at 3 o'clock.

This popular company will wind up its engagement here tomorrow night when they will bid farewell to Dothan with the Western melodrama "At Cripple Creek."

AN OPEN LETTER TO JUDGE GEO. LESLIE

Dear Sir: You have been Probate Judge of our county for the past eight years under a Democratic organization, backed by the Democratic voters of Hamilton County. You have always claimed to be a loyal Democrat and have at all previous elections urged the Democrats of the county to stand by the Democratic nominees. After the primary on May 2nd, when on the returns of the election, you found that you had been defeated, you in a moment's time, pledged your support to the nominees of the party which you had abandoned. That you are now supporting an Independent candidate in place of yourself, is a surprise to the many of our citizens who have stood by you through every battle and to the party which you have always claimed to be. Will you please give me an open answer to this question?

Are you for the nominees or are you against them?
Yours truly,
(signed) Evan Grace.

Mrs. A. H. Strickland and little son, Jack, of Ashford, are in the city visiting relatives.

NEGROES ATTEMPT TO WRECK TRAIN

**THREE NEGROES PLACE IRON
RAIL ON COAST LINE
RAILROAD**

Three negroes made an unsuccessful attempt to wreck a Coast Line train Wednesday afternoon just outside of the Dothan yards.

Taking a piece of steel rail about three feet long, they placed it alongside the inside rail and left. The attempt was discovered by the section foreman and the plot foiled. The negroes escaped, and have not been found, although they left a good clue behind.

A negro by the name of Bishop was arrested for the deed, but was later exonerated. Bishop testified that he was picking cotton in a field near where the attempt was made and that he was thrown at by the negro boys several times. He revealed the facts of the plot of the boys to the officers, and as he was an eye witness to the affair, gave some valuable information.

It is the supposition that the negroes were going to wreck a freight due along there about that time, but they were too late, and didn't get the rail down until a few minutes after the train had dashed by. The section foreman came along in a few minutes and found the rail. He stated that in the position it was placed, and the great bend in the road at that point, that had the plot not been discovered, that probably many lives and much property would have been lost.

NEW BANK OPENS

The Dothan Mortgage and Trust Company, which was organized some months ago, has opened its doors for business, in the corner building, at the crossing of Troy and Foster streets.

This institution will do a general banking business, but especial attention will be given to loans on real estate in Dothan and Houston county.

It is officered and directed by some of the strongest business men of the city.

Mr. A. Y. Malone, the president, will be in charge, assisted by Mr. Alto Faulk, who has been in the First National Bank for some time.

NOT MUCH COURT TODAY

Only one case was tried in the circuit court today and that was the case of V. J. Forrester and Brother for the use of Grimalley Brothers vs. The J. A. May Co. The suit was for \$1,000.

Turn Out And Vote.

On Tuesday next, when the election comes off, people should go to the polls and vote just as if it was a hotly contest affair.

There is usually a very poor turnout to a general election where the candidates have already been nominated, but in this instance, a full vote ought to be polled.

Ernest O'Neal has opposition in the person Joe Thompson, and while Thompson's race will not amount to anything, still it is the duty of all democrats to go to the polls and pile up as big a majority as possible.

The local election ought to be of enough interest to vote strong, while it isn't considered that the opposition to Mr. Crawford will be a serious one. That isn't the point, it is the duty of the people to go out and vote just like they thought that the race was a close one.

Every report that comes in from the different sections of the county gives Mr. Crawford assurance of an overwhelming victory.

There is no reason why he shouldn't get practically a solid vote. He is the nominee, fair and square. Mr. Butler has not been in the race till the last few days, and no one had any idea that an independent would come out till right at the last minute.

Mr. Crawford's time is taken up on the school building he is putting up, and has no time to get out, and it is a hardship on him to have a fight sprung on him right on the eve of an election. Therefore, he is relying on his friends who have stood by him all along. He believes that they feel that he is entitled to the office, without his trying to see them again.

Rice's Charges against Dothan

Fire Marshal Rice brings rather sensational charges against Dothan about the number of fires that occur here. He files a report that accuses the city administration, and the local insurance agents of non-co-operation in looking into the fires we have.

So far as we know, no charges have been brought against anyone for burning houses here, and if the houses that do burn are over-insured, it looks like the fire insurance companies ought to be looking over their agents first. The agent is the man on the ground, and he is supposed to know something of the moral risk and physical valuation of property. If they allow property to be insured for more than it is worth, they are doing their companies an injustice, whether the property ever burns or not.

It is too often the case that the agents will write a risk, and then intimate that there was something

crooked, should the risk become a loss. This has happened here several times and does the town a great injustice. It helps to keep the rate higher than it otherwise would be.

But where does Fire Marshal Rice get his information that houses have been burned in Dothan for the insurance? Wherein is he justified in filing a report that is published charging the city officials and insurance agents with being in league with house burners?

His charge is rather sweeping, and is calculated to do the city great harm.

Water Was Loaded

An Atlanta man is asking for a divorce from his wife on the grounds that she gave to him and his children water for breakfast with carbolic acid in it. There is no evidence, other than the man's that carbolic acid was in the water set out for the children, and we therefore take the position that he was out the night before at a soft drink social, and the taste in his mouth the next morning at breakfast time, was something that might have reminded him of carbolic acid, or anything else, as to that matter.

We believe if the judge will look further, he will find that we are right in our surmise.

If the man had complained at dinner, or at supper, it might have been as he represented it, but we don't believe the complainant was competent to judge what tasted like carbolic acid, and what didn't at breakfast time.

Complainant further avers that this wife was a No 2 affair, and the children whose water was pizened were by wife No. 1.

If his wife did a thing like that she showed bad judgement.

Trade is picking up in Dothan in every line, and every day big crowds are in town shopping. Many of them are from the other towns in this territory. They know where to come to find what they want, and they know the merchants here have good stuff to offer, and at prices that will compare with those of any other town in the country.

The Abbeville News remarks that Hasting Blackridge, clerk of the circuit court of Henry county, is the only man that it knows of that went out of office of his own accord. Yes, most of them have to be prized loose from the job with a jimmy, or die in harness.

The circus that was here yesterday couldn't parade much in town on account of the condition of the streets, but they wouldn't have made much of a show anyway, for their outfit looked like the remnant of a Gypsy camp.

The Georgia papers are filled with the pictures of automobile races from the whole country, and next week the papers will be filled with the accounts of the various accidents that will happen.

STATE ASSOCIATION HOLDS MONTHLY MEETING

The first monthly meeting of the Dothan Rebate and Protective Association was held last night in the office of Secretary Biggers in the New Farmer and Crawford building.

The members responded well to the secretary's request for a large attendance and quite a number of men were there.

President Williams gave out the list of committees and the members that constitute them they are:

Advertising, M. Cherry, Chairman, F. B. Culver, and W. L. Brown.

Finance; C. B. Whatley, chairman, W. H. Whatley, and J. U. Carleton.

Internal affairs; N. H. McCallum, chairman, O. P. Green and B. W. Clendinen.

Insurance and Taxation; I. C. Belle, P. M. Carlisle and Quin Nix.

Transportation and Freight; W. C. Strickland, H. Blumberg, S. A. Stapleton.

The president received the hearty approval of the members on appointing the above committees and seem confident that the club in the future will prosper in every way.

It was resolved by the members who have been giving the Eagle library tickets to discontinue to do so on account of the expense of the premiums.

During the past month the club, although young, has been doing considerable work along the line of rebate etc., and the people living in the neighboring towns are beginning to realize its offered advantages.

BARNEY OLDFIELD GRANTED AN INJUNCTION

Atlanta, Ga., Nov. 2.—Barney Oldfield, disbarred since his race with Jack Johnson by the American Automobile Association began his fight for reinstatement in the superior court here today.

Judge George L. Bell granted a temporary restraining order against the American Automobile Association and the Atlanta Automobile Association, enjoining them from preventing Oldfield

appearing and exhibiting and contesting at the Atlanta Speedway, meet on November 3 and 4.

Argument is set for November 10, but both the local and American associations have the privilege by giving two hours notice

of calling the argument any time before that date.

The injunction was granted on the ground that the American Automobile Association did not give Oldfield a hearing before it disbarred him. The order restrains not only the local association from interfering with the local body to bar Oldfield, or from penalizing the drivers who may compete against Oldfield.

Cottolene

Comes from the Land of Sunshine

The very source of *Cottolene* inspires confidence in the product. It is pure. It comes from the cottonfields of the Sunny South and from cottonfield to kitchen human hands never touch the oil from which *Cottolene* is made.

Being a vegetable product, *Cottolene* is pure—and just as digestible as the purest olive oil. You can never be sure of this when using lard, which is simply hog fat—an animal product.

Cottolene is immeasurably superior to lard from a health standpoint. It makes pure, digestible, nourishing food, and food which any stomach can digest.

The careful, once-posted housewife will use *Cottolene* in place of lard every time.

A SUBSTANTIAL INSTITUTION

Always prospers. The opening of the Campbell Institute of Shorthand and Accounting in Dothan, Ala., on Oct. 3rd 1910 is the beginning of what promises to be one of the most substantial business colleges in Alabama.

The young people do not have to go to the large cities and spend a small fortune getting a first class commercial training.

A good school of Bookkeeping, Shorthand, Typewriting and Commercial English, in a good little city, under the direct supervision of an experienced business college man, invites the youth of the South to accept this superior training at a very reasonable figure.

Not Overestimated

"Let me tell you, gentlemen," said the vegetarian, who was lecturing before the Butchers' Association, "that there is more energy contained in a single banana than there is in five pounds of beefsteak."

Instantly a storm of protest and derisive hisses broke forth from the indignant audience. But above the noisy rasp could be heard the stentorian voice of a husky-looking individual shouting: "The man is right! But he fails to allow enough energy for the fruit. I know from my own personal experience that a mere fraction of the outside of a banana contains sufficient energy to take the best wrestler in the world off his feet."

Importance Of Life Insurance

Do you realize the importance of Life Insurance? If not, you should begin thinking about it at once, for life is uncertain, and death sure; being the case, WHY DELAY?

To carry a policy in the Home Company that has just been organized in Dothan, will cost you over TWO CENTS A DAY, and you would not mind paying that small amount to know that when you died, your family would be well provided for.

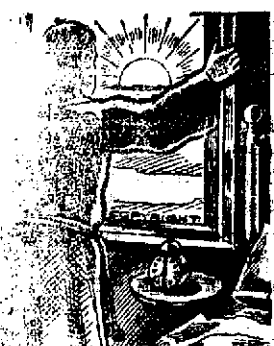

Often you hear a man say "if I knew I was going to die soon, I would take out a policy," but that is a poor argument, as many a person has died not leaving his family One Dollar, because he thought he would live a long time.

This is where the uncertainty of life comes in, and where the wise man takes time by the forelock and provides for the future for those that are looking to him for protection.

For further particulars, apply to

Myer Levine, Gen. Mgr.

Dothan, Alabama.

The First Thing You Do

Should be to have your furnish cleaned now for Winter's use, or have your house fitted up with steam or hot water heating apparatus. Don't wait till cold weather to do this, but have it done before your Fall housecleaning begins. We are ready and waiting for all of this kind of work now that is necessary, and no one in Dothan can do it better than we can.

Cost of Meat

"The cost of meat is something terrible to what it used to be," murmured the old resident. "I remember when you could get the best cuts for only five cents a pound." "Huh!" boasted the middle-aged man with the dependent looking mouth, "I remember the time when I could get the best cuts for nothing." "When was that?" asked the suspicious old resident. "When I was living with my father-in-law," answered the middle-aged man.

Tuesday's Total Vote in Alabama
In estimating the state vote on
Tuesday next to all of the demo-
cratic primary vote should be in-
cluded except a few comparatively
speaking who may on Tuesday
next be providentially kept from
the polls. No honorable man
can enter a primary and then re-
fuse to vote on election day. The
very essence of a primary is an
agreement to abide by the general
result.

Then, too, on Tuesday next ev-
ery man who truthfully says "I
am a democrat" will certainly go
to the polls, whether he was able
to vote in the primary or not. The
solid democratic strength of the
state is due at the polls on Tues-
day next.

The republican vote will also
be brought out. The postmasters
will attend to that branch of the
business. The vote cast for Taft
was 25,308.

Since the adoption of the new
constitution in 1901 the vote of
the state has been as follows: in
1902, democratic 67,763, republi-
can 24,421; in 1904, democratic
79,857, republican 22,472, populist
5057, prohibition 612; in 1906,
democratic 62,771, republican 10,
002, in 1908, democratic 74,374,
republican 25,305, populist 1565,
prohibition 665—total in 1908, a
presidential year, 101,909. The
registration has been increased and
the vote of 1910 should exceed
the presidential vote of 1908. It
certainly will if every democrat
does his duty next Tuesday —Age-
Herald.
